

Dear NHC Residents and Families:

Our Food and Nutrition Department is pleased to announce that we will have a new menu system that is projected to start 9/2/2019. As we transition to our menu system, we will remain on the same six week menu schedule. While most menu items will remain the same, some new items will be introduced. Our Breakfast menu will be the same for all residents and will change on a rotating schedule. We will continue to offer an alternate selection for lunch and dinner; however, we ask that you be open to trying new foods and meal combinations.

In addition to new menus, we are also changing our meal ticket software program. The meal ticket will have a new and improved look. We are entering patient data, including beverage selections, food allergies, and intolerances. We may need to revisit food likes/dislikes in the future, as we progress through the menu schedule. Some resident data pertaining to food preferences may no longer be relevant, as tastes change, and new foods are introduced. As we start fresh, we are concentrating on food allergies/intolerances before being able to process food dislikes. We would appreciate your understanding for changes may occur to the menu as we try out our new menu options for our residents. We thank you for your patience and understanding through this transition.

Thank you for allowing us to take care of your Loved one. If you have any questions, please feel free to contact us at 864-675-6421 ext. 1413.

Thank You,

Your NHC Mauldin Dietary Department
