Resident Art Spotlight

With the new St. Louis Aquarium set to open winter 2019, there's construction going on at Union Station. When the workers are not busy doing the baby shark dance,

they're busy getting the 120,000 square-foot space ready. It will be located in the former mall area within St. Louis Union Station. During the construction time they will display local art work, including our residents own! We look forward to a Live with Lauren once the space is ready.

We have always known how great our food and nutrition service department is but they really shined this year, taking home four Missouri regional awards for 2018 including : Dining Services of the Year, Financial Management, Augusta E. Walker Award for customer service/ satisfaction and food quality, and Dining Quality Award.

To earn these awards our team must not only achieve quality goals but also meet excellence scores through our family surveys, among other factors. Please know that when you are filling out these surveys that we do strive for excellence but excellent does not always mean perfect. We are humans taking care of humans and will always continue to work through and grow in our challenges.

“Care is our business” and we will continue to

“Care in a better way day by day”.

Your feedback is always welcomed and appreciated.

Thank you for allowing us to care for your loved ones!

Congratulations team!
