

The Grapevine

NHC Mauldin

April is the fourth month of the year in the Gregorian calendar. It was originally the second month of the Roman calendar, before the addition of January and February. No one knows for sure how April got its name. Some say it comes from the Latin *aperire*, meaning "to open," alluding to the opening of buds in springtime. Others say April was named after Aphrodite or the goddess Eostre. Whatever the case, the onset of April means that spring has arrived.

April 29th Magic Show

Partners of the Month

Theresa Garrett

Theresa is one of the most amazing nurses I have had the pleasure to work with at NHC. She has worked here for 20 years and is known to many as "Mother Theresa". She is such a compassionate and empathic person, and you can find her helping a new admission and their family transition to care in the facility and praying for those passing from this life to the next. Theresa is always willing to help others in any capacity whether that be entering orders, providing patient care, or assisting with a med pass. Both residents and families adore Theresa, she is always assisting them with any needs they may have. We are so blessed to have her here at NHC and I'm especially blessed that she is the desk nurse on unit 1.
