

NATIONAL HEALTHCARE CORPORATION (NHC) DIETETIC INTERNSHIP

So, you're looking for an internship? Look no further! Did you know that long-term care is one of the fastest growing areas of health care? Today's 40 million adults over the age of 65 comprise over 12 percent of the population and are expected to double over the next 15 years. The health care industry needs qualified dietitians with expertise in the field of geriatric nutrition.

WHO ARE WE?

Since 1971, National HealthCare Corporation (NHC) has combined exceptional care with a compassionate focus on patients and their families. Throughout the southeast, our affiliated centers provide rehabilitating care as well as skilled nursing care, homecare, hospice, residential and assisted living services. With over 150 centers in 10 states, NHC is delivering the highest level of care, pioneering new approaches and celebrating achievements from the commitment that has guided us throughout our 45 years and continues to lead us forward.

WHAT'S THE DIETETIC INTERNSHIP PROGRAM ALL ABOUT?

NHC's Dietetic Internship Program trains qualified individuals to become generalist dietitians, with an emphasis in geriatric nutrition. Accredited in 1982, the program includes rotations in hospitals and long-term care centers, as well as community experiences. NHC's dietetic internship faculty believes in providing a nurturing environment that is conducive to learning, as well as challenging academically.

WHY SHOULD YOU APPLY?

- Unique job opportunities with NHC available upon graduation in the areas of clinical and food service management in a rapidly growing job market. Over the past five years, 50% of our graduates have chosen to accept jobs with NHC.
- NHC has provided quality dietetic training for 35 years for over 250 graduates. Over the past five years, 93% of our graduates have passed the RD exam on their first attempt.
- Variety of experiences working with over 35 preceptors in 10+ sites in middle TN.
- Economical program including monthly stipend, low tuition, liability insurance, meals, textbooks, and travel expenses.
- Graduate credit (3 hours required, 3-6 additional hours optional).
- Opportunity to travel including staff relief, consulting, pediatric rotation, and state and national convention.

NHC is committed to being the industry leader in customer and investor satisfaction.

LETTER TO PROSPECTIVE APPLICANT

July 18, 2016

Dear Prospective Applicant:

Thank you very much for your interest in the National HealthCare Corporation (NHC) Dietetic Internship Program. The NHC Dietetic Internship is celebrating its 35th year of providing quality dietetics education. Included with this information are specific guidelines and information about NHC's Dietetic Internship Program, applicant responsibilities for the Dietetic Internship application and for the computer matching process. The NHC Dietetic Internship Program is participating in a centralized application process. All applicants to the NHC Dietetic Internship must go through a computerized matching process with D & D Digital as well. Applicants should go to the Academy of Nutrition and Dietetics to receive instructions and timelines for computer matching and information on the Dietetic Internship Centralized Application Services (DICAS). There is a \$55.00 computer matching fee, a \$30.00 NHC application fee and a \$45.00 DICAS fee.

I am pleased that you are interested in our program. In the next few months you will have to make many important decisions. With an NHC Dietetic Internship, you have options to not only continue your education but also begin a promising career. Potential applicants are welcome to contact the program director to schedule visits to the program. Summer and early fall visits are encouraged to help prepare you for the February 2017 application deadline. If you have any questions or need additional information, please call (615) 890-2020, ext. 1830 or email Patty Poe at ppoe@nhccare.com.

Sincerely,

Dr. Patty Poe

Patty T. Poe. EdD, RD, LDN
Director, NHC Dietetic Internship

OVERVIEW AND CURRICULUM

National HealthCare Corporation (NHC) is a long-term health care company that operates health care centers, Alzheimer's units, homecare programs, hospice programs, assisted living and independent living centers. NHC's health care centers provide skilled and intermediate nursing care as well as speech, physical and occupational therapy. NHC is recognized nationwide as an innovator in the delivery of quality long-term care. Our goal is to provide a full range of extended care services designed to maximize the well-being and independence of patients of all ages. We are dedicated to meeting patient needs through an interdisciplinary approach combining compassionate care with cost-effective health care services. NHC was founded in 1971, began trading publicly on NASDAQ in 1983, listed on the American Stock Exchange, and operated as a limited partnership from 1986 until December 1997 at which time it converted back to a corporation. To learn more about the sponsoring company, please visit www.nhccare.com.

In order to become a registered dietitian or registered dietitian nutritionist an individual must complete a three step process including: 1. Complete the Accreditation Council for Education in Nutrition and Dietetics (ACEND) Didactic Program in Nutrition and Dietetics academic requirements plus obtain the minimum of a Bachelor's degree, 2. Complete an ACEND accredited supervised practice program (i.e. Dietetic Internship Program) and 3. Obtain a passing score on the registration examination for the RD or RDN credential.

The primary objective of the program is to train qualified individuals to become competent dietitians. For the 2016-17 class, six dietetic interns were selected for the program. The ten-month internship program begins in mid-August. Currently, dietetic interns rotate through the following facilities: NHC centers in the Middle Tennessee area, Skyline Medical Center, Horizon Medical Center, VA TN Valley Healthcare System, Fresenius Dialysis Care, WIC, Homecare, school foodservice, wellness and fitness experiences and various hospitals in Memphis for pediatric training.

NHC's Dietetic Internship is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) and the United States Department of Education. Upon successful completion of the dietetic internship program, the interns will meet the ACEND required core competencies and program specific concentration competencies for the RDN. In addition, intern graduates will be eligible for active membership in the Academy of Nutrition and Dietetics and to take the registration exam. Upon successfully passing the RD exam, individuals will be eligible to obtain licensure according to their state guidelines.

Care is taken during recruitment and selection, as well as actual administration, to protect student civil rights. The program director seeks a diversified class and works to maintain an appropriate percentage between minorities who interview for the program and those accepted. The program and sponsoring organization both adhere to policies regarding the selection, hiring and promotion based on ability regardless of race, color, religion, creed, sex (including pregnancy), retaliation, sexual harassment, age, national origin, disability or genetic information. Student privacy is respected during the program. Grades and evaluation outcomes are handled on an individual basis, and space is provided in the internship director's office for private counseling as needed.

Accreditation

The NHC Dietetic Internship Program is currently granted Accreditation status by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 312/899-0040, Ext. 5400. (website www.eatright.org/ACEND; email ACEND@eatright.org) ACEND is the only accrediting agency for dietetics education recognized by the United States Department of Education (USDE).

NHC MISSION, GOALS, AND OBJECTIVES

All program goals and objectives are being met at this time. Specific levels achieved for these outcome measures are available from the director upon request.

The mission of the NHC's Dietetic Internship is "To prepare interns to become successful entry-level registered dietitian nutritionists through supervised practice and didactic learning experiences in clinical, foodservice

management and community nutrition with an emphasis in geriatric nutrition. “The mission of the program drives the goals and outcome measures that are listed below:

Goal 1: The program will produce competent graduates who are prepared for entry-level practice as registered dietitian nutritionists.

Objectives for Goal 1:

- 1.1 95% of the dietetic interns who enter the program over a five-year period will complete it within 150% of the program length or 15 months.
- 1.2 At least 83% of program graduates who are seeking jobs will obtain jobs in the field of dietetics or a related field within 12 months of graduation.
- 1.3 At least 83% of the program graduates will take the registration exam within 12 months of graduation.
- 1.4 Over a five-year period, 90% of the program graduates will pass the RD exam within one year following their first attempt (one year and first time pass rate is currently at 93% for the past five years).
- 1.5 Program graduates will receive an overall rotation grade of 3.0 or higher for each rotation completed.
- 1.6 Program graduates will receive a grade of B or better in the graduate course taken at Middle Tennessee State University (MTSU).
- 1.7 Program graduates will rate knowledge and preparedness for entry-level dietetics practice as adequate, as evidenced by a mean score of 4.0 or higher out of 5.0 on the graduate employer survey.
- 1.8 Employers of program graduates will rate knowledge and preparedness for entry-level dietetics practice as adequate, evidenced by a mean score of 4.0 or higher out of 5.0 on the employer survey of graduates.

Goal 2: The program will prepare graduates to practice in the geriatric nutrition field and provide a return on investment (ROI) for the sponsoring institution.

Objectives for Goal 2:

- 2.1 At least 50% of program graduates will obtain employment in the area of geriatric nutrition over a five-year period.
- 2.2 To provide a ROI to NHC and encourage further sponsorship of the program. An adequate ROI will be defined as the following: Over a five-year period, to provide the sponsoring institution with one to two years of service from 50% of graduates

Goal 3: The program will affiliate with facilities that will provide highly knowledgeable and supportive professional staff to train the interns during their supervised practice experiences.

Objectives for Goal 3:

- 3.1 At least 80% of the facilities that the program uses for training for rotations of two weeks or longer will renew or continue affiliation agreements every two years or as determined between the institution and the affiliate site.
- 3.2 Preceptors responsible for intern training at the affiliation sites will have the necessary training and credentialing in dietetics or food service management and become familiar with the NHC dietetic internship program.
- 3.3 Dietetic interns will rate 90% of the areas assessed on the rotation evaluations as average or above average.

Goal 4: The program will prepare graduates to demonstrate a commitment to the community through professional involvement, leadership and service in a variety of personal or professional settings.

Objectives for Goal 4:

- 4.1 The interns will become members of the national, state, and local dietetic association while in the program.
- 4.2 The interns will attend the local district dietetic association meeting a minimum of two times during the program.
- 4.3 At least 80% of the interns will attend a national and/or state dietetic association meeting during the program.
- 4.4 The intern will complete at least three community/volunteer dietetic-related activities during the program.
- 4.5 When surveyed, graduates will rate their level of involvement in professional activities, community service or leadership activities as adequate, as evidenced by a mean score of 4.0 out of 5.0 or above on the graduate employer survey.

Goal 5: The program will develop within the interns the skills and motivation to pursue learning opportunities during and after the program.

Objectives for Goal 5:

- 5.1 Dietetic interns will write a personal action plan identifying personal and professional competencies. At the conclusion of the internship, each intern will have met 66-75% of these competencies.
- 5.2 Dietetic interns will demonstrate how to complete a sample CDR professional development portfolio (PDP).
- 5.3 When surveyed, graduates will rate their participation in continuing education activities as adequate, as evidenced by a mean score of 4.0 out of 5.0 or above on the graduate employer survey.

CURRICULUM, SCHEDULE, AND PROGRAM COMPLETION

The ten-month program currently provides didactic and supervised practice experiences as follows:

Orientation and Clinical Conferences	First 2 weeks of internship
Dietetic intern classes	Mondays
MTSU Graduate class (3 hrs.)	Mondays- afternoon (one semester only)
NHC (clinical)	5 weeks (160 hours)
NHC (food services)	5 weeks (160 hours)
NHC (staff relief)	4-5 weeks (152 hours)
Skyline Medical Center (clinical)	4 weeks (128 hours)
Horizon Medical Center (clinical)	4 weeks (128 hours)
Alvin C. York VA Medical Center	5 weeks (160 hours)
Fresenius Dialysis	2 weeks (64 hours)
Pediatric (St. Jude, LeBonheur, Boling CDD)	2 weeks (64 hours)
Wellness and Fitness	2 weeks (64 hours)
Lebanon Special Schools	2 weeks (64 hours)
Community/Elective	2 weeks (56-64 hours)
TwelveStone (nutrition support/wellness)	1 week (32 hours)

The NHC Dietetic Internship is completed in approximately ten months on a full-time schedule beginning in mid to late August and extending into June. Most weeks consist of at least 40 hours per week of classes and supervised practice experiences, with completion of written projects being done at home. A two-week orientation is mandatory for all interns held at NHC corporate office in Murfreesboro, TN and several affiliate sites. Before starting the program, interns must have proof of medical insurance, have professional liability insurance (provided by NHC), drug screen, background check, and health form requirement. Currently, the

supervised practice hours are completed during the weekdays with the exception of approximately three weekends. If a leave of absence is requested and approved by the director, the program requirements must be completed within 150% of the program length or 15 months. Information regarding leave of absences will be discussed further in the policy and procedure manual upon acceptance into the dietetic internship. A master rotation schedule is given to each student at the beginning of the program and Monday class schedules are given to interns at least two weeks ahead of time.

Both didactic and supervised practice experiences shall be included in the dietetic internship program. Planned learning experiences shall be offered in logical progression from introductory to the expected degree of competence in program graduates. RD Exam practice tests will be administered throughout the year and will require a passing score in order to graduate from the program. In addition, during the final week of the program, the interns will complete procedures for eligibility to take the RD examination. The RDNE misuse form will be explained by the director and signed by students to be kept in their student files.

Upon graduation, students are expected to have met core and emphasis competencies. Successful completion of classroom and rotation assignments will ensure that the core competencies for entry-level dietetics, and geriatric emphasis competencies, have been met and that a verification statement will be issued to graduates. Grading expectations are listed in the policy and procedure manual.

DELETE THIS SECTION ON POLICY ON GRANTING CREDIT FOR PRIOR LEARNING EXPERIENCE

MEMPHIS TRAINING

Two weeks of pediatric training will be scheduled in the spring in Memphis, Tennessee. Housing has traditionally been provided by NHC. Some meals and gas are reimbursed by NHC. The projected cost to the intern for the Memphis rotation is \$150.00-\$200.00.

STAFF RELIEF

When feasible, staff relief is scheduled at an approved NHC facility in a convenient location for minimal lodging and/or travel costs to the intern. Staff relief is scheduled in the Tennessee, Kentucky, Missouri, Alabama, South Carolina, or New England area. Efforts will be made to assist in locating lodging. Interns who need to relocate to complete a staff relief assignment will receive both a travel and small housing allowance.

COMPLAINT POLICY

Any grievances or complaints about the dietetic internship should first be presented to the director. If the intern is dissatisfied with the results of the conference with the director, then the intern should make a request, in writing, for a conference with the grievance committee. The Grievance Committee will be composed of at least two (2) dietitians of NHC, the director, and a staff member of the home office of NHC. If the intern is still dissatisfied, then a written request should be made for a conference with the senior vice president of patient services. All grievances will be documented and signed by the director and the intern. The original will be filed in the intern's folder and kept on file in the office of the director.

If an individual other than an intern such as faculty, preceptor, dietetics practitioner and/or member of the public has a complaint, they may submit a complaint against the program. If the complaint can be addressed with the program director, that is the first course of action. If it is believed that it can't be resolved through the program director, the complaint can be brought to the senior vice-president of patient services. The procedure to file complaints against accredited programs to ACEND is discussed in the policy and procedure manual. Please submit complaints directly to ACEND only after all other options with the program and the institution have been exhausted. All grievances will be handled in a manner that prevents retaliation.

CLASSES

Interns meet at least three times per month for dietetic internship classes on various topics throughout the entire program. Interns are required to enroll in a three-hour graduate class, which meets on Monday afternoons at Middle Tennessee State University. Interns have an option to receive three to six additional graduate credits for the Dietetic Internship.

BENEFITS AND EXPENSES

STIPEND

A stipend of \$1,350.00 (total for program) is provided by the company. The first check will be mailed on September 30 and the final check on April 30. Monthly checks will be available on the last day of the month unless that date is a weekend, in which case they will be issued on the following Monday. The final check will be applied toward the RD Exam workshop registration. NHC will pay the remaining registration fee.

INSURANCE

Interns are required to obtain their own health insurance and professional liability insurance is provided by NHC throughout the program. Interns provide proof prior to beginning the internship. Interns are responsible for all medical expenses incurred during the internship. In addition to health and professional liability insurance, interns are required to have automobile insurance and assume own liability while traveling to and from internship practice experiences.

MEALS

During assigned training only, lunch will be provided on most rotations. Interns will be responsible for meals on class day and when attending meetings such as the Academy of Nutrition and Dietetics Food and Nutrition Conference and Exhibition (FNCE).

FNCE

Attendance is required to the national meeting which will take place October 21-24, 2017 in Chicago, IL. Registration and hotel are paid by NHC. Interns are responsible for paying for their travel (gas or airfare) and meals while at FNCE.

HOLIDAYS/VACATIONS

Interns have at least a one-week vacation during late December and early January. The exact dates will be given upon acceptance into the program. The holidays for the year will be Labor Day, Thanksgiving Day (2 days), Christmas Day and New Year's Day.

SUPPLIES

Some supplies for special projects are reimbursed. Supplies purchased must have a receipt and be turned in on the proper form to the internship director. This does not include routine daily supplies, e.g., paper, pencils and pens, which are the responsibility of the intern. Most textbooks are provided for the dietetic intern but are to be returned upon program completion. Interns will be responsible for paying for uniforms and lab coats in the amount of approximately \$100.00. NHC will provide the interns with an NHC embroidered polo shirt which can be worn on most rotations if desired. All copying should be done at NHC's corporate office if at all possible. Interns are required to provide their own laptop to be used for projects and on class days.

TRANSPORTATION

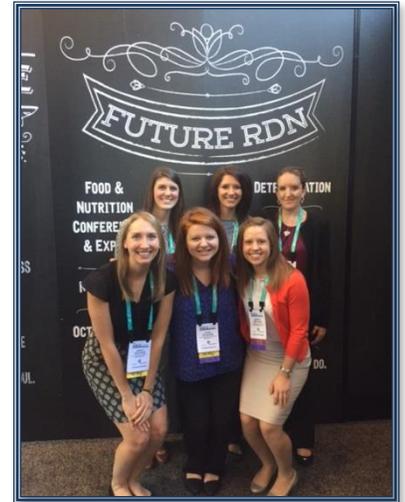

Interns must have access to a vehicle at all times. All maintenance and mileage expenditures will be the responsibility of the intern. Facilities are located in the Murfreesboro, Nashville and surrounding middle TN area with the exception of the Memphis pediatric rotation. A gas allowance is given for some rotations. Monthly transportation costs can range from \$200.00-\$500.00 depending on where you live and gasoline prices.

LODGING

Interns will be responsible for all housing costs during all training, except the weeks of FNCE and Memphis. Numerous apartment complexes are available in Murfreesboro and Nashville. Monthly rental for one or two bedroom apartments is approximately \$400.00 to \$1,000.00 per month, depending on location and roommate availability.

FINANCIAL AID

Interns may apply for NHC dietetic internship tuition reimbursement scholarships of \$1,000.00 each to assist in the payment of education expenses during the dietetic internship. Tuition reimbursement scholarships are

awarded to applicants demonstrating professional potential in long-term care and require a work obligation of one year after graduation. Interns who choose to work for NHC will also receive a \$2,000.00 recruitment bonus at graduation. Tuition reimbursement scholarships and recruitment bonus are available to graduates accepting employment with NHC up to one year after graduation.

UNIVERSITY FEES

Interns are required to enroll in one (3 credit) course which is HSC 6530, Effective Program Management. The course is taken at Middle Tennessee State University (MTSU) which is the local university in Murfreesboro, TN. The course is a hybrid course and meets approximately five times per semester on Monday afternoons. In addition, interns may enroll for six additional credit hours towards a graduate degree. If an intern enrolls in the optional six credit hours, they would have to pay the additional tuition, but no additional classwork is required beyond the normal dietetic internship program hours. MTSU has a Master's of Science degree in Health and Human performance with a Health concentration. A nutrition specialization has been approved to begin during the fall of 2016. If you are interested in the optional graduate credit (and possibly finishing your graduate degree at MTSU), please contact the NHC program director to discuss. Interns must pay all university fees, including out-of-state assessments, if applicable. Tuition and fees for the 2016-2017 sessions were approximately:

In-state Students	Out-of-State Students
3 hours - \$1,500.00	3 hours - \$3,798.00 (required 3-hour graduate course)
9 hours - \$4,500.00	9 hours - \$11,400.00 (if taking the 6 hours of optional graduate credit)

APPLICATION FOR NUTRITION AND DIETETICS SCHOLARSHIPS FOR 2017-2018 ACADEMIC YEAR

The application can be downloaded from the Academy of Nutrition and Dietetics from September 2016 to February 2017. Traditionally, the scholarship application must be completed and postmarked by February 15, 2017, but please check the website for deadlines.

Accreditation Council for Education in Nutrition and Dietetics (ACEND)
The Academy of Nutrition and Dietetics
1-800-877-1600, ext. 5400
education@eatright.org

Students must be members of The Academy to be eligible. Dietetic internship applicants may also want to contact their state dietetic association to check on available scholarships awarded for completion of the dietetic internship.

APPLICATION & ADMISSION

The Dietetic Internship Program at NHC is participating in the centralized application process. There are three steps to the application process:

- Step One: DICAS online application
- Step Two: NHC Supplemental Application Form
- Step Three: D & D Digital Computer Matching

STEP ONE: CENTRALIZED APPLICATION: DICAS

- ◆ DICAS Application can be accessed at Dietetic Internship Centralized Services (available after 12/1/16)
- ◆ Email DICASinfo@DICAS.org. The online application MUST be completed by February 15, 2017 at 11:59 pm, Central Standard Time. Confirm this deadline on the DICAS website.
- ◆ The fee to DICAS is \$45.00 for the first application and \$20.00 for each additional application.

- ◆ On the DICAS application, applicants will be asked to complete a personal statement in 1,000 words or less. NHC appreciates personal statements that are less than 500 words. Information to be addressed includes:

1. Why do you want to become a dietitian?
2. What are some experiences that have helped you prepare for your career?
3. Short and long-term goals.
4. Strengths and areas needing improvement.
5. Why are you applying for the NHC program?

- ◆ Official transcripts from all colleges and universities attended should be sent to:

DICAS-Transcript Dept.
PO Box 9118
Watertown, MA 02472

- ◆ GRE score is required to be considered for the NHC Dietetic Internship Program. Please send documentation of the GRE score with NHC's Supplemental Application and/or upload a copy of it to DICAS. You will not be able to have the GRE people send it directly to NHC because we are not a university. There is no minimum required score, but a combined quantitative and verbal score of 300 or higher is preferable in the evaluation process.
- ◆ The recommended minimum GPA is 3.0 (overall) and 3.2 (DPD). Applicants with GPAs below this are not likely to score highly in the selection process. The average GPA over the past three years has been 3.6 to 3.8.
- ◆ When completing the application form, you must list three references and include the names and contact information (email address) for each. This will trigger an email message requesting completion of a reference form. The form will be completed online. Students completing more than one application need to use the same individuals as references for each application. At least one recommendation from your advisor or a professor in your major field and a work recommendation are preferred.
- ◆ Work experience, especially in a nutrition or food service related field, is recommended. Leadership roles, length of employment, number of hours worked and volunteer experience will also be considered.
- ◆ Over the past five years, we have received approximately 60 applications per year. Once these applications are reviewed, approximately 22 are selected for a personal or a phone interview at the NHC Corporate Office. Hotel accommodations for one night will be provided to applicants selected for an interview if they must travel more than 200 miles one way.

STEP TWO: SUPPLEMENTAL APPLICATION FORM FOR NHC

- ◆ Download the NHC Supplemental Application Form (the form is attached below)
- ◆ Recency of education: Additional courses in a nutrition or dietetics related area are required to update a degree which was completed five or more years prior to application to the NHC Dietetic Internship program. Courses must be taken at a U.S. regionally accredited college or university and require a grade of B or better. An official transcript of these courses must be provided. If your degree was completed 5 - 10 years ago, six semester hours is required. If your degree was completed within the past 0-5 years, no updated courses are required.
- ◆ The NHC Dietetic Internship does not give credit for prior work experience. However, rotations may be modified based on a student's prior work experience if approved by the director at least two months before the internship begins. If a student has completed HSC 6530, Effective Program Management at Middle TN State University (MTSU), with a B or better, prior to the internship, the student will have satisfied that requirement. The student would have to participate in the grant project in the spring with the rest of their class.
- ◆ In addition to the DICAS application, please mail (postmarked deadline of February 15, 2017) the completed NHC Supplemental Application Form, the non-refundable application fee of \$30.00 (check made payable to NHC Dietetic Internship) and a copy of your GRE score (unless you have uploaded it to the DICAS site) to:

National HealthCare Corporation, Patty T. Poe, EdD, RDN, LDN, PO Box 1398, Murfreesboro, TN 37133-1398

STEP THREE: COMPUTER MATCHING D & D DIGITAL

- ◆ Register online for computer matching and select your dietetic internship priority choices by 11:59 pm Central Time on February 15, 2017. There is a \$55.00 computer matching fee to D & D Digital, payable when your priority choices are identified. Confirm this date on D & D Digital Systems.

D & D Digital Systems
3100 S. Riverside Drive
PO Box 887
Ames, IA 50010

**NHC DIETETIC INTERNSHIP
2017-18 SUPPLEMENTAL APPLICATION FORM**

Name:	
Applicant's Address:	
Cell Phone (including area code)	
Email Address:	
Didactic Program:	
GRE Score & Date Taken (Please also scan your GRE report and upload it to DICAS or include with this form)	
Recency of Education Description: If Dietetics degree is more than 5 yrs. old, then applicant must provide documentation (official transcript) of at least 6 credit hrs. in dietetics related courses within the past 5 yrs., unless the program director approves otherwise.	

The Supplemental Application Form must be postmarked no later than February 15, 2017. Include the \$30 Application Fee made payable to NHC Dietetic Internship and your GRE score and mail along with the Supplemental Application form to:
